THE REPLY FILED 31 December 2007 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.		
1. <input type="checkbox"/> The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:		
a) <input type="checkbox"/> The period for reply expires _____ months from the mailing date of the final rejection. b) <input checked="" type="checkbox"/> The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).		
Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).		
NOTICE OF APPEAL		
2. <input type="checkbox"/> The Notice of Appeal was filed on _____. A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

Response to Arguments

1. Applicant's arguments filed 31 December 2007 have been fully considered but they are not persuasive.
2. Regarding the applicant's remarks that the prior art of Abram et al. (US 2002/0003631) fails to teach producing a piece of art work using a computer controlled color printer capable of printing at least three colors. The examiner respectfully disagrees. As stated in paragraph [0031], the rendering application may be used to generate a number of color samples from the digital image. These samples may be generated from fixed color palettes or may be programmable palettes. The color samples may be printed together with the color book image. Since the printer is capable of printing color samples, it is being interpreted by the examiner that the printer is a color printer.
3. Regarding the applicant's remarks that the process used by Abram et al. is different than the claimed invention. No process is claimed in the invention to reach the desired results, only a method is claimed.
4. Regarding the applicant's remarks that Abram et al fail to teach a thermal inkjet printer. The examiner respectfully disagrees. Paragraph [0029] discloses a printer and paragraph [0034] discloses printed the coloring book image by any standard printing process. It is being interpreted by the examiner that inkjet printing is a type of standard printing process.
5. Regarding the applicant's remarks that Kohno (US 6,749,282) is irrelevant. The examiner respectfully disagrees. Kohno shows the ink cartridges in the printer and how they can be removed, as claimed in claim 11.
